

JOB ANNOUNCEMENT:

Deer Lakes School District

Date Posted: July 1, 2019

Network Technician

The Deer Lakes School District seeks a Network Technician (12-month position) to oversee the Deer Lakes School District network infrastructure. The successful candidate will have experience with switching and routing, computers, and Tier 1 and Tier 2 support. College Associate or Bachelor's degree required.

Send resume, three (3) current letters of reference, current Act 34, 151, and 114 clearances, salary requirement and DL classified application (found on deerlakes.net) to: Dr. Janell Logue-Belden, Superintendent, Deer Lakes School District, 19 East Union Road, Cheswick, PA 15024.

Reports to: Director of Information Technology

Description: This individual will be responsible for overseeing the Deer Lakes School District network infrastructure. Additionally, this person will provide Tier 1 and Tier 2 technical assistance to students, faculty, and administrators of the district via phone, remote desktop, and in person settings.

Technical Skills and/or Certifications Required: Cisco, Extreme, and 3com networking, Windows 7 and 10 administration, Google administration, Windows Server 2008 and up administration, VMware administration, computer troubleshooting and repair, experience with Extreme wireless equipment or Avaya telephone a plus. Experience with Netapp storage and multimedia, projectors, soundboards a plus. Preference will be given to those with Google certs and experience in education technology.

Required Education: Associates degree in network administration, computer repair, or systems administration required. Bachelor's degree in computer science, information systems, or network administration preferred.

Required Experience: 1-3 years' experience working with virtual servers, troubleshooting hardware and software, Windows 7 and up and Office and Google Suite, and basic networking and systems administration required. Experience working in a school district technology department a plus and must be an independent worker who can handle multiple tasks in a team-oriented environment.
