

Individualized Health Plans

Although many children share the same medical conditions, every child is different and has special qualities unique to their medical condition. The attached "Individualized Health Plans" will help reflect these special qualities and specific needs your child might have and or need.

If your child's individualized health plan requires a medication to be kept at school, please make arrangements for an adult to bring them to the nurse's office at the beginning of the school year.

Students are not permitted to carry medications to and from school. The only exception to this is if your child will be carrying his/her own epipen or inhaler.

If you have any questions or concerns, please feel free to contact your child's school nurse at your convenience. Our goal is to create the safest and healthiest environment for your child.

****Individualized Health Plans must be renewed with your child's primary care doctor every year.****

Yours in health,

The Deer Lakes School Nurses
